MASTER OF NURSING

with specialization in Advanced Respiratory Nursing /
Management and Leadership

護理學碩士

專研：高級呼吸系統護理 / 管理及領導

Introduction

With the growing demand for healthcare services due to demographic trend of longevity, complexity of diseases spectrum, and rapid development of medical technologies, the advancement of professional competence of nurses is needed. It is imperative for nurses not only assuming a more advanced role, but also engaging in the functions and responsibilities with expanded scope and increased complexity. It has been recognized as a global trend to promote advanced and specialized nursing practice.

The programme is designed for nurses who are planning to enhance their professional development in the specialty area:

Specialization in Advanced Respiratory Nursing:

Nurses who are currently working in Respiratory Unit, Medicine and Geriatrics Unit, High Dependency Unit, Ventilator Care Unit or those who are interested in respiratory nursing.

Specialization in Management and Leadership:

Nurses who are interested to develop the skills, knowledge and attributes required for leadership and management roles in healthcare.
