

Hong Kong Metropolitan University

Undergraduate Programmes 2025/26
(For Applicants with International Qualifications)

Hong Kong Metropolitan University (HKMU) was established by the Government in 1989. HKMU offers bachelor's, master's and doctoral degree programmes to meet society's talent needs and provide our students with recognised academic qualifications.

HKMU stands as the largest self-financing university in Hong Kong with about 20,000 students enrolling in our programmes. The University takes pride in its comprehensive range of full-time bachelor's degree programmes in a wide variety of disciplines including arts, humanities, languages, social sciences, business administration, science and technology. For the 2025/26 Academic Year, four Schools of the University, namely School of Arts and Social Sciences, Lee Shau Kee School of Business and Administration, School of Education and Languages and School of Science and Technology, offer full-time bachelor's degree programmes to non-local students to apply for admissions.

Student Sharing

The University offers us many internship opportunities. I took on an internship at Sino Hotel, which broadened my horizons. I've just joined the School's A-Team Student Development this year, and I'm looking forward to participating in different competitions and activities. I'm fortunate to have made friends with students from different cultural backgrounds. One of my best friends is from Pakistan. The students from Hong Kong have helped me adapt to life in Hong Kong, for instance, by teaching me how to use chopsticks. One of them even sent me home by bus on my first day of school!

Aubrey Ato GOMEZ (Philippines)
Bachelor of International Hospitality and
Attractions Management with Honours

Maryna LEVCHENKO (Ukraine)
Bachelor of Business Administration with Honours in
Global Marketing and Supply Chain Management

A teacher from my previous institution, as well as a friend working in the financial industry, recommended HKMU to me for its excellent finance and business courses. My current programme involves mathematics. I found the mathematics is more advanced than that of Ukraine, so it's a bit hard for me to catch up. Fortunately, the teachers are very kind and helpful. And as they speak fluent English, I have no difficulty in understanding the lectures here!
